The purpose of this meeting is to update the public on GPS public document revisions and collect issues/comments for analysis and possible integration into future GPS public document revisions. Since the last Public Interface Control Working Group held on 12 September 2018, solutions to some of the topics have changed.

Specifically, GPS public documents will be updated to reflect how users will calculate the correct UT1 time following a leap second transition. All outstanding comments on GPS public documents will be considered in the next revision cycle (~Fall 2019). The “Virtual” 2019 Public Interface Control Working Group is open to the general public. The subject meeting will be dial- in only.

For those who would like to attend and participate, we request that you register no later than May 3, 2019. Please send the registration information to [SMCGPER@us.af.mil](mailto:SMCGPER@us.af.mil), providing your name, organization, telephone number, email address, and country of citizenship.

Comments will be collected, catalogued, and discussed as potential inclusions to the version following the current release. If accepted, these changes will be processed through the formal directorate change process for IS-GPS-200, IS-GPS-705, and IS-GPS-800. All comments must be submitted in a Comments Resolution Matrix. This form along with proposed document revisions of the documents and the official meeting notice are posted at:
